LIFE IS LIKE A JIGSAW PUZZLE

Have you ever stopped, turned around, and walked backward through life? In looking back, our life is in fragments like pieces of a puzzle. Some pieces vividly live and held dearly. Others vaguely there, trying desperately to grasp our memories. And there are some that have completely slipped by unnoticed, making the picture incomplete.

The 1974 Heliostat is taking a step backward into the past to fill in those blotted memories.

the band game
 not everyone can play
 devotion is the key
 the qualifications are rigid
 but to find out if YOU can play
 have you ever--

worn a uniform three sizes too big
 been marching along and your valves freeze
 fallen down on a right spin turn
 peeled your lips from a frozen mouthpiece
 been squad leader for three freshmen
 forgotten your instrument on a band trip
 tried to keep a straight face while the fire
 extinguisher goes off
 gone blank during a half time show
 been told to 'start your own band'
 tried to please a coach AND a band director
 carried a tuba that weighs more than you do
 squeaked during a contest
 been told 'you face looks full'
 had a large hat when you normally wear a small
 worn three pairs of pants and four sweaters under
 your uniform
 played 'charge' for the other team
 forgotten to wear gloves for a half time show
 been called and told the buses were waiting for you
 marched behind horses in a parade

if you meet any of these qualifications
 then you are ready to play
 the band game

IN APPRECIATION

"My potato chips don't have enough bar-b-que on them!" "This hamburger is cold!" "My coke is watery!"

Sound familiar? You're right--the snack bar at lunchtime. And who must listen to all these complaints and try to satisfy her picky customers?--Mrs. Torreyson, commonly known as "the snack bar lady."

Mrs. Torreyson has worked at CHS thirteen years, originating as a cook, and then taking charge of the snack bar when it was begun.

Mrs. Torreyson is always pleasant, and wearing a smile, even at the end of third lunch shift. If she has ever been mad or upset with her student customers, she's certainly never shown it.

It's nice to know someone as pleasant as Mrs. Torreyson, and everyone goes away from the snack bar a little happier, for her cheerfulness must be contagious.

Thanks for turning us on

You probably never realized it, but you turn us on when you flick on the lights or turn on the TV

... or your stereo

... or the air conditioner

... or a Christmas tree

... or the hair drier

... or open the refrigerator

... or anytime you use electricity to brighten your life or lighten your work.

No wonder you didn't realize it; most people don't.

You have to know us well to see the connection between the switch on your wall and the growth of A. B. Chance Company.

It's a long way — sometimes hundreds of miles — from the power plant to the switch at your fingertips. Bridging the gap is an intricate network of power lines that carry electricity across the country and down the street where you live. Utilities turn to Chance to help plan, build, maintain, operate and control that network.

So we are the people who make a thousand-and-one-and-then-some products which your electric utility needs to serve you every day of your life.

Next time you flick a switch, think of Chance. It's a great place to work.
